

Is there a concrete medical supervised ML use case?

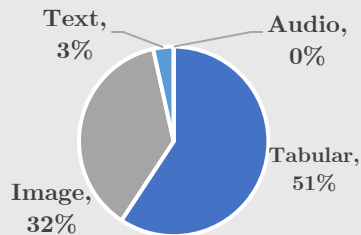

1

### Top 3

- 1 SHAP
- 2 LIME
- 3 Intrinsic Interpretable

Which XAI method is used?

2

From which data format is the input?

3

**Our estimation:**  
Only 16 %  
of the XAI  
methods

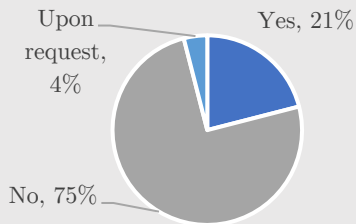

How many XAI methods  
can potentially be  
understood by patients?

4

On average,  
**2.15 out of 3**  
with a positive trend  
to better descriptions

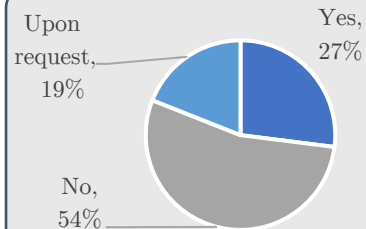

How well is the ML  
pipeline described?

5

Is the source code  
provided?

6

Is the data publicly  
available?

7
